

Actuarial Development Program Opportunities 2010

John Hancock is a subsidiary of Manulife Financial, a leading Canadian-based financial services group serving millions of customers in 19 countries and territories worldwide. The Company offers clients a diverse range of financial protection products and wealth management services through its extensive network of employees, agents and distribution partners.

John Hancock can be found on the Internet at www.johnhancock.com. Manulife Financial Corporation trades as 'MFC' on the TSX, NYSE and PSE, and under '0945' on the SEHK

John Hancock is currently looking for highly motivated Actuarial students who are interested in the actuarial profession to join us in our Boston offices. To maintain our leadership role as one of the largest life insurance companies in North America, we strive to hire exceptional students from university programs with strong actuarial, math, or finance backgrounds. We offer a dynamic and challenging Actuarial Development Program coupled with exposure to one or more key actuarial disciplines including pricing, valuation, marketing, investments, risk management and financial modeling. Affording you the technical and business skills development you need in today's competitive environment, you will have an opportunity to work with a highly skilled team of actuaries in a supportive learning environment.

John Hancock strives to provide Actuarial Students with a full and varied career, from a high quality competitive study program, rotation program, and compensation, to international and other business opportunities.

Consider yourself an ideal candidate if you are a person with strong analytical, quantitative and problem solving skills; are eager to learn; have excellent verbal and written communication skills; and can work independently in a challenging and fast paced environment. We are looking for candidates who have the following:

- 1-6 Actuarial Examinations completed (Responsibilities will vary with experience level)
- Strong university background with success in relevant courses
- Ability to communicate clearly and concisely with both technical and non-technical team members
- Strong analytical, quantitative and problem solving skills, with the ability to be an innovative thinker and understand the "big picture"
- High energy, results oriented self-starter with the ability to achieve under tight deadlines in a rewarding and fast-paced environment
- Demonstrated leadership skills
- Actuarial internship experience (especially at John Hancock) considered an asset
- Excellent working knowledge of Excel; other programming skills and MS Access experience may be an asset

John Hancock is committed to creating an environment where capable individuals can develop their skills and are recognized for their achievements. Our employees will determine the future of our success. In order to recruit and retain the best and brightest employees, we will invest in the development of our human resources and reward superior performance.

If you are interested in the Actuarial Development Program, visit www.johnhancock.com/careers and enter 'STU0901432' in the 'Search Careers' section.

Students should apply directly online to the general requisition.

Qualified students will be contacted directly.
