

Ages 4-7:

Even though you are on summer break, it's still fun to practice your **ABCs** so you are ready for school in the fall. Can you draw an animal for every letter of the alphabet? **A** is for ant, **B** is for bear...and so on. Or can you draw a food for every letter of the alphabet? **A** is for apple, **B** is for banana. Have fun and create a visual alphabet on paper or a poster.

Ages 8+:

You know your **ABCs** but have you ever thought about going on a picnic and bringing an item from every letter of the alphabet? It goes something like this...I'm going on a picnic and I'm going to bring an **A**pple, a **B**lanket, a **C**ookie...and so on. You can get creative—who wouldn't want to bring a Dinosaur on a picnic? Draw the alphabet picnic items and create a visual of all the fun treats and friends who will join you.
